

To enhance your culinary experience, our entire retail selection is available for you to enjoy at your table. All wine consumed on premise is subject to a forty dollar surcharge, which is already reflected on our wine list. Please feel free to explore our retail store, peek in our cellar, and shop-- our gourmet market offers over 300 cheeses and charcuterie, along with an extensive retail selection of world class spirits. We look forward to helping you find an enjoyable and memorable selection.

Cheers and Bon Appétit!

CHAMPAGNE

Champagne is the name of the world's most famous sparkling wine, the appellation under which it is sold, and the French wine region it comes from. Champagne is a legally controlled and restricted name. Located at a northern latitude of 49°N, the Champagne region lies at the northern edge of the world's vineyard-growing areas, with lower average temperatures than any other French wine region. In this kind of cool climate, the growing season is rarely warm enough to ripen grapes to the levels required for standard wine making. Even in temperate years, Champagne's grapes still bear the hallmark acidity of a marginal climate, and it was only the discovery of secondary fermentation that provided a wine style capable of harnessing and even embracing this tartness.

SPARKLING WINE

Produced in a variety of styles worldwide, Sparkling wine offers the joy of the bubbly experience, often at a much greater value than its more luxurious cousin Champagne. Our handful of off-the-beaten-path sparkling wines from California, Italy and Spain showcase the breadth of bubbles the world has to offer.

SAUVIGNON BLANC & BLENDS

Known for its crisp, refreshing acidity, citrusy and sometimes tropical aromatics, and its light, palate cleansing body, Sauvignon Blanc is grown worldwide in a great variety of styles. Always a crowd pleaser; whether from the Loire Valley, Bordeaux, New Zealand, California or other locales, Sauvignon Blanc has truly reached international fame and popularity. Those made in a crisp, dry style are typically best drunk in their youth, while the sweeter dessert wine styles blended with Semillon in Bordeaux, can age for upwards of 30 years.

WHITE WINES OF GERMANY

The Mosel, Nahe, Rheingau, Rheinhessen and Pfalz represent a few of the most outstanding wine regions of Germany. Riesling is the star of the show here, where winemaking dates back to the 15th century. This aromatic grape variety is known for its ability to express the terroir of the region where it's grown; Mosel examples usually exhibit higher acidity and mineral, citrus notes, while the more southerly Rheingau tends to make examples with more tropical fruit and melon notes and lower acidity. Kabinett or Trocken are words to look for if you're after a dryer style, while Spatlese and Auslese will have a bit of residual sugar.

WHITE BURGUNDY

CHABLIS

Chablis produces light, dry, white wines famed for their flinty minerality and crisp acidity. Chablis wines are made in a style rather different from those produced elsewhere in Burgundy. They are drier and fresher, rather than more weighty and richly flavored. Most A.O.C Chablis is fermented and aged in stainless steel, with use of oak barrels more common in higher-level wines, though used larger barrels are more likely to be employed than new barriques, and wines will spend a shorter time in them than in the Côte d'Or.

MEURSAULT

Meursault is a large village in the Cote de Beaune sub-region of Burgundy. Its wines are regarded as highly as those of its southern neighbor Puligny-Montrachet, despite Meursault not having any Grand Cru vineyards to speak of. Rather than any one world-class site, it is Meursault's reliably high-quality Premier Cru and commune-level wines that are responsible for its good reputation. The most famous of these are produced at the southern end of the commune, at the Charmes, Perrieres and Genevrieres vineyards.

WHITE BURGUNDY

PULIGNY-MONTRACHET

Puligny-Montrachet is a village in the Cote de Beaune sub-region of Burgundy, with its own communal appellation. It is also home to four Grand Cru vineyards and 17 Premier Cru sites. The communal Puligny-Montrachet white wines are made from Chardonnay. The high-quality white wines – regarded by many as the finest possible expression of Chardonnay, that are responsible for Puligny's fame and stellar reputation.

CHASSAGNE-MONTRACHET

In the southern part of the Côte de Beaune Chassagne-Montrachet shares with Puligny the uncontested title of the prince of the world's dry white wines: the divine Montrachet (pronounced "Monrachay"). This fine, broad hillside brings out the very highest expression of Chardonnay.

CORTON-CHARLEMAGNE

Corton-Charlemagne is the Grand Cru appellation for the white wines of the Montagne de Corton hill, in the Côte de Beaune district of Burgundy. Classic Corton Charlemagne is considered to be amongst the finest of Burgundy's whites, and is famous for its combination of fruit flavors (figs and baked pears) and mineral character (flint) – the latter being particularly prevalent in wines from the cooler western slopes. Corton-Charlemagne ranks among the world's more expensive white wines, although it still does not reach the prices commanded by its Montrachet counterparts.

CHEVALIER-MONTRACHET

Chevalier-Montrachet is one of five grand cru vineyards on the Mont-Rachet hill at the very southern end of the Côte d'Or. Like all of the top vineyards in this part of the Côte de Beaune, Chevalier-Montrachet is planted to Chardonnay, and makes structured, full-bodied white wines that are often regarded as the ultimate expression of the variety. The poor soil here allows the vines easy access to the subtle mineral components of the limestone substrata below, and forces them to grow strong, healthy roots as anchors. These grapes tend to be intense and concentrated, and translate into high-quality, balanced wines that can be aged for many years.

WHITE BURGUNDY

BÂTARD-MONTRACHET

Bâtard-Montrachet is a grand cru vineyard at the base of the Montrachet hill, across the communes of Chassagne and Puligny-Montrachet. Bâtard-Montrachet is considered to be one of the very best terroirs in the world for the Chardonnay grape variety, making complex, structured wines with excellent aging abilities. Bâtard-Montrachet's name, like many in the area, is said to derive from the process of inheritance. A vineyard on the southeastern slopes of the Montrachet hill is thought to have been divided up by a local lord, the Seigneur de Puligny, between his oldest son, the Chevalier; his daughters, the Pucelles (maids); and his illegitimate son, the bâtard, or bastard.

BIENVENUES-BÂTARD-MONTRACHET

Bienvenues-Bâtard-Montrachet is a small grand cru climat on the southwestern slopes of the Montrachet hill in Burgundy's Côte de Beaune. It is planted entirely to Chardonnay, making rich, plump white wines that, while not quite as prestigious as the wines from the nearby Montrachet vineyard, are still some of the most sought-after and highly priced wines in the world.

CRLOTS-BÂTARD-MONTRACHET

Criots-Bâtard-Montrachet is the only grand cru vineyard that lies entirely within the commune of Chassagne-Montrachet. It is located on the southeast-facing midslope of the Montrachet hill at the southern end of the Bâtard-Montrachet climat, with the famous Le Montrachet Grand Cru site covering the hill above. The Criots vineyard is planted to Chardonnay, making complex, rich white wines that are considered among the best in the world. The vineyard is one of the smallest AOCs in France, covering just 1.6 hectares (4 acres) of land – only the La Romanée site in the Côte de Nuits is smaller. Criots-Bâtard-Montrachet is also the most southerly of Burgundy's grand cru vineyards.

WHITE BURGUNDY

MONTRACHET

Montrachet is a grand cru vineyard in the southern Côte de Beaune that is widely considered to be the world's best for Chardonnay. It is located on the midslope of the Montrachet hill above the villages of Puligny- and Chassagne-Montrachet, covering land in both communes. Montrachet has the prime position on the hill. The vines are perfectly angled southeast, giving them the exposure to the sunshine that is so important to the ripening process. The slope of the vineyard, along with the pebbly limestone soils make for perfect conditions to grow Chardonnay.

CHARDONNAY

Throughout California's long wine growing history, many different international varieties have made their way to our local landscape, and express themselves in totally new and exciting ways. California Chardonnay has continued to lead the pack in redefining our conceptions of what is possible. While many producers continue to pursue the production of an 'Old World' style in homage to the great white wines of Burgundy, others make a bold, rich and robust style of Chardonnay not seen elsewhere.

ROSÉ

A rosé (from French rosé; also known as rosado in Portuguese and Spanish-speaking countries and rosato in Italy) is a type of wine that incorporates some of the color from the grape skins, but not enough to qualify it as a red wine. Rosé wines can be made still, semi-sparkling or sparkling and with a wide range of sweetness levels from highly dry Provençal rosé to sweet White Zinfandels and blushes. Rosé wines are made from a wide variety of grapes and can be found all around the globe.

BURGUNDY

PINOT NOIR

The Burgundian climate is predominantly continental, with relatively short summers and cool winters. The landscape here is characterized by its limestone soils, manifested either in rolling hills, steep, sharp valleys or rocky outcrops. These soils are of immense importance to the character of Burgundy's wines, bringing a quintessential minerality and complexity. In fact, along with considerations of orientation, it is the precise soil make-up of the best Burgundy vineyards that brings them the honor of Premier Cru or Grand Cru status.

GEVREY-CHAMBERTIN

A village in Burgundy's Côte de Nuits district – produces some of the world's most prestigious and expensive red wines. The village is home to nine grand cru vineyards, comfortably more than any other Burgundy village (the nearest contender is Vosne-Romanée). Eight of these feature "Chambertin" somewhere in their name, in homage to the most respected among them: Le Chambertin. Although the grand cru wines attract the most attention, those made under the village's standard Gevrey-Chambertin appellation are held in very high regard. Widely regarded as being Burgundy's most full-bodied and structured, the village's wines have a particular intensity of color, aroma and flavor about them, not to mention impressive longevity.

CHAMBERTIN

Le Chambertin is the most important grand cru vineyard in Gevrey-Chambertin, one of the northernmost wine villages in Burgundy's Côte de Nuits. Chambertin's soils are well-drained and stony, with a thin layer of pebble-strewn, chalky topsoil over a deep rocky base. The percentage of clay reduces higher up the site, giving way to drier, looser limestone. The climate, as throughout the Côte d'Or, is of continental type, meaning warm, dry summers and cool, crisp winters. The strong diurnal temperature shift that this climate type brings about helps the vines here to maintain a balance of natural sugars and acidity.

CHAMBERTIN-CLOS DE BÈZE

Chambertin-Clos-de-Bèze is a prestigious lieu-dit of the famous Le Chambertin Grand Cru vineyard at the northern end of the Côte d'Or. Alone, Chambertin-Clos-de-Bèze covers 15 hectares (37 acres) of land. The soils here are similar to in Chambertin, made up of pebbly, free-draining limestone with a good proportion of clay. This nutrient-poor terroir ensures that the vines do not expend too much effort on leafy vigor, instead producing small, intensely flavored berries that make high-quality wines. The sunny southeastern aspect has also proved well suited to the Pinot Noir that grows here as the grapes reach full ripeness while retaining essential acidity in Burgundy's cool continental climate. As a result, Clos-de-Bèze wines are incredibly well balanced.

CHAPELLE-CHAMBERTIN

Chapelle-Chambertin is a grand cru vineyard in the Gevrey-Chambertin appellation at the northern end of the Côte de Nuits in Burgundy. It is located on the lower slopes of the grand cru belt, immediately below the commune's most prestigious climat, Chambertin Clos-de-Beze. It is one of the area's lesser-known grand cru vineyards, although it still makes full, structured examples of Pinot Noir that can be aged for many years.

149930	Trapet 'Chapelle-Chambertin' Grand Cru 2010		260

CHARMES-CHAMBERTIN

Charmes-Chambertin is one of Gevrey-Chambertin's lesser-known grand cru sites, located on the Côte d'Or right below the famous Le Chambertin climat itself. Often referred to alongside the Mazoyères-Chambertin vineyard, Charmes-Chambertin makes some of the softer Pinot Noir wines from Gevrey-Chambertin's stretch of grand cru vineyards. The vineyard occupies the lowest and most shallow slopes of the grand cru belt, close to the border with Morey-Saint-Denis. The soils in the vineyard are well-drained and stony, with a thin layer of pebble-strewn chalky topsoil over a deep, rocky base. The percentage of clay reduces slightly towards the higher edge of the site, giving way to drier, looser limestone.

GRIOTTE-CHAMBERTIN

Griotte-Chambertin lies on the slopes below the famous Clos de Beze and Chambertin vineyards, borrowing its name from its more famous neighbor. Griotte-Chambertin is one of the more sought-after names in Gevrey-Chambertin, due to its fresher, more delicate style of Pinot Noir. The climat covers just 2.7 hectares (6.7 acres) of land, on a slope that faces northeast, instead of east or southeast, like the other grand cru vineyards. This aspect means that the vines have less exposure to the morning sunshine, and ripen more slowly than other climats. While Gevrey-Chambertin is known for its strong, muscular styles of wine, Griotte-Chambertin wines tend to be aromatic and balanced.

LATRICIÈRES-CHAMBERTIN

Latricières-Chambertin is one of the eight grand cru vineyards in Gevrey-Chambertin. It lies on the Côte d'Or, just south of the famous Chambertin vineyard and above Mazoyères-Chambertin. Latricières-Chambertin wines tend to be slightly more rustic than Gevrey-Chambertin's other grand cru vineyards. Like Chambertin, Latricières-Chambertin has thin, chalky soils that are well suited to wine growing, as they do not allow the vine to become complacent. Instead, the vines struggle to survive, producing small, intensely flavored berries.

MAZY-CHAMBERTIN

Mazis-Chambertin wines are structured and rich, and the best examples closely resemble the wines of the neighboring Clos-de-Beze climat. The vineyard is divided into upper (Mazis-Haut) and lower (Mazis-Bas) sections, divided by a lane that connects the southwestern corner of Gevrey-Chambertin village with the D122 road, the Rue de Chambertin. Mazis-Chambertin is on the same part of the slope as the prestigious Chambertin vineyard.

155349	Marchand Tawse 'Mazy-Chambertin' Grand Cru 2011		265

MAZOYÈRES-CHAMBERTIN

Mazoyères-Chambertin is located at the southern end of the area's band of grand cru vineyards, with its southern edge touching the border of Morey-Saint-Denis. Like most of its more famous neighbors, Both Mazoyères-Chambertin and Charmes-Chambertin have thin limestone soils over a deeper layer of rock, providing a terroir that drains freely and reduces energy-sapping vigor, while also forcing the vines to grow strong root systems.

156283	Domaine Perrot-Minot 'Mazoyeres-Chambertin' Grand Cru 2007		355

MOREY-SAINT-DENIS

It could be said that the appellation of Morey Saint Denis forms a bridge between the wines of Gevrey-Chambertin and those of Chambolle-Musigny. Rich in Premier Cru's, Morey Saint Denis also has 5 small Grand Cru vineyards. Perhaps because of its small size and it's more famous neighbors, there are still a number of remarkable values and special bottles to be found.

CLOS DES LAMBRAYS

Clos des Lambrays is one of four grand cru vineyards in Burgundy's Morey-Saint-Denis appellation. The 8-hectare (21-acre) site produces some of the world's most prized Pinot Noir wines, rivaled only by their grand cru counterparts along the Cote d'Or. Clos des Lambrays wines are noted for their rich, lush palate and elegant structure – less muscular than their northern neighbors in Gevrey-Chambertin.

026824	Domaine des Lambrays 'Clos des Lambrays' Grand Cru 1921	5,640

CLOS DE LA ROCHE

Clos de la Roche is the most northerly of Morey-Saint-Denis' four grand cru vineyards. It is located on the slopes of the Côte d'Or above the Route des Grands Crus, and covers 17 hectares (42 acres) of Pinot Noir vines, more than twice that of Clos Saint-Denis. Clos de la Roche is considered as one of Morey-Saint-Denis' best climats, and makes plump, structured wines with characteristics of cherry and truffle.

CLOS DE TART

Clos de Tart is a grand cru vineyard at the southern end of Morey-Saint-Denis, bordering the small portion of Bonnes-Mares that falls inside the commune. Unlike many of the area's vineyards, Clos de Tart has been a monopole since its creation in the middle of the 12th Century.

CHAMBOLLE-MUSIGNY

Often considered the most 'feminine' or delicate wine of the Cote de Nuits, Chambolle Musigny is elegant, subtle and complex in its profile. Aromas of sweet red fruit, spice box and earthy underbrush meet to create a silky, smooth palate with just a trace of brightening acidity. Boasting only two Grand Cru's within its borders, Chambolle-Musigny is more well known for its broad array of Premier Cru climats.

MUSIGNY

*Musigny is relatively steep and thus very well drained. The high proportion of chalk and limestone in the soils here, coupled with its excellent drainage, means that the vines are forced to develop deep and healthy root systems to search for water. This terroir helps to create rich, fruit-forward Pinot Noir that combines elegance and power – an all-important combination which has led Le Musigny wine to be repeatedly described as *une main de fer dans un gant de velours* – “an iron fist in a velvet glove”.*

BONNES-MARES

Bonnes-Mares is one of the more fragmented grand cru vineyards in Burgundy, with more than 30 producers owning land in the climat. The climat covers 15ha (37 acres) of land on the midslope of the Côte d'Or. Bonnes-Mares borders the Clos de Tart Grand Cru site on its northern side, and to the south and west is surrounded by premier cru vineyard.

CLOS VOUGEOT

Clos Vougeot is a small, walled-in vineyard located just south Musigny. Named after the River Vouge, this quaint area was founded by monks in the 12th century and has served as the flagship vineyard for the Cistercians ever since. It is the largest Grand Cru Vineyard in the Cote de Nuits, shared between over 80 owners who some, just farm just a few rows of vines each.

VOSNE-ROMANÉE

The best and brightest of the Grand Cru's of Burgundy; La Tache, La Romanee, Romanee Conti, Richebourg, Romanee St. Vivant and La Grande Rue, are all located in the commune of Vosne Romanee. This is the epicenter of the world's finest, most highly coveted Pinot Noir. The wines of this region combine power, finesse, richness and elegance in equal measure.

GRANDS ÉCHEZEAX

Grands-Echezeaux is a grand cru vineyard in the Côte de Nuits, sandwiched between the Echezeaux and Clos de Vougeot. Despite its name (grand means "large" in French), the site is less than one-third the size of its similarly named neighbor

205595	Domaine de la Romanee-Conti 'Grands Echezeaux' Grand Cru 2015	1,740
201945	Joseph Drouhin 'Grands Echezeaux' Grand Cru 2015	640
146370	Joseph Drouhin 'Grands Echezeaux' Grand Cru 2010	500

ÉCHEZEAX

Echezeaux is above the Clos de Vougeot vineyard in Burgundy's Cote de Nuits. Like its famous neighbor, it is considerably larger than most grand cru vineyards, covering nearly 40 hectares (100 acres) of land. Echezeaux wines are on the full-bodied end of the Burgundy spectrum, showing red fruit as well as spice and undergrowth characters.

205594	Domaine de la Romanee-Conti 'Echezeaux' Grand Cru 2015	1,540

LA TÂCHE

La Tâche is a small grand cru vineyard in the village of Vosne-Romanée, at the heart of Burgundy's Cote de Nuits. It covers 6 hectares (15 acres) of land planted to Pinot Noir, and is a monopole of the iconic Domaine de la Romanée-Conti. The single wine made at La Tâche is full-bodied and structured, and is one of the most expensive and sought-after wines in the world.

159742	Domaine de la Romanee-Conti 'La Tâche' Grand Cru	MAGNUM 2011	15,040
--------	--	-------------	--------

ROMANÉE-CONTI

Romanée-Conti, a grand cru climat of the Vosne-Romanée appellation, is quite easily one of the most famous vineyards in the world. It covers just 1.81 hectares (4.47 acres) of vines on the midslope of the Côte d'Or, and is a monopole of Burgundy's iconic Domaine de la Romanée-Conti. The vineyard makes a single Pinot Noir that is one of the most expensive and sought-after wines in the world.

205598	Domaine de la Romanee-Conti Romanee-Conti' Grand Cru	2015	17,540
200512	Domaine de la Romanee-Conti Romanee-Conti' Grand Cru	2014	15,040

RICHEBOURG

One of the larger vineyards in the village, and is famous for its full-bodied, muscular style. Richebourg wines are in fact some of the most opulent from Vosne-Romanée, exhibiting earthy characters along with dense fruit, and they are capable of being cellared for many years.

204439	Domaine de la Romanee-Conti 'Richebourg' Grand Cru	2014	MAGNUM	4,040
158315	Jean Grivot 'Richebourg' Grand Cru	2011		1,390

POMMARD

The most powerful, tannic and robust wines of Burgundy come from Pommard. The full body, round palate, and depth of flavor of these wines can't be found anywhere else in Burgundy. Although only Premier Cru vineyards make up the climats of Pommard, many of them are as respected as top Grand Crus.

VOLNAY

Similar to Chambolle Musigny, Volnay has a reputation of being a very feminine, delicate and silky expression of Pinot Noir. Light garnet in color, with an intensely flowered bouquet with notes of fresh red fruit, and a smooth, elegant finish, Volnay is home to many well regarded Premier Cru wines.

166959	Marquis d'Angerville Volnay 'Champans' 1er Cru 2013	215

NEW WORLD PINOT NOIR

The expression of domestic Pinot Noir offers a completely unique and refreshing approach to such a beloved variety. Generally richer in new oak nuances, and with a riper fruit profile, these wines tend to be fuller in body than their Old World predecessor.

CÔTE-RÔTIE

Côte Rôtie is a prestigious red-wine appellation at the northern tip of France's Rhône Valley wine region. It is the Rhône Valley's northernmost appellation, and one of its smallest. The south-east-facing slopes produce wines which are both powerful and elegant. The steep hillsides (côtes) here rise sharply from the banks of the River Rhône to heights of 1150ft (330m). Côte Rôtie wines are renowned for being elegant and finely structured.

HERMITAGE

Hermitage, the rich Syrah-based red from the northern Rhone Valley, is one of France's most enduringly prestigious wines. It sits on the very top rung of Rhone Valley wines, which it shares only with those from the Cote Rotie (30 miles/45km to the north), and Chateauneuf-du-Pape (70 miles/110km to the south). The whole of the granite hillside where the Hermitage vineyards are planted faces south, meaning that the grapes benefit from the maximum amount of sunlight throughout the day.

CORNAS

Cornas is a village in the northern Rhone valley which produces rich, long-lived red wines. The area is blessed with the same steep granite slopes and high sunshine hours as Hermitage, to the north, and makes a similar, if slightly less refined, style of wine.

CHÂTEAUNEUF-DU-PAPE

Châteauneuf-du-Pape is a historic village between the towns of Orange and Avignon, in France's southern Rhône Valley. It is famous for powerful, full-bodied red wines made predominantly from the classic southern Rhône grape trio: Grenache, Syrah and Mourvèdre. These three varieties are behind the vast majority of the appellation's red wines, although a total of eighteen are approved for use – a mix of red and white grape varieties. The archetypal Châteauneuf vineyard is strewn with large pebbles known as galets, whose soft, rounded form stands in direct contrast to the gnarly, twisted vine trunk.

RHÔNE-INSPIRED BLENDS

Outside of France, the next most celebrated region for Syrah and Rhone varieties is the West Coast of the US. California, Oregon and Washington make many styles of Syrah and the range is more producer driven than terroir driven, as in the Old World. A group of winemakers known as The Rhone Rangers have popularized these wines in the US market and become leaders in innovation and quality for these US made iterations of the classic Rhone style.

ITALY

PIEMONTE

Italy's most highly coveted, collectible and expensive wines all originate in the Northwestern Piemonte region. Barolo and Barbaresco are both made of the native Nebbiolo grape variety, and represent the different styles of the towns near which they are made. Soil differences, climate variation, and farming/winemaking laws make these two very different wines. The less famous wines of Piemonte, Barbera and Dolcetto, offer a wonderfully affordable, easy drinking counterexample to the other more 'noble' wines of the region.

BAROLO

A traditional hillside village in the rolling hills of Piedmont, northwestern Italy. The vineyards and wineries there have long been famous for producing some of Italy's very finest red wines predominantly from the region's signature grape variety, Nebbiolo. Fragrant, tannic Barolo wine is so revered that it was one of just three wines awarded DOCG status on the day that the classification was introduced in July 1980. The Barolo vineyard zone covers the parishes of Castiglione Falletto, Serralunga d'Alba and Barolo itself, and also spreads over into parts of Monforte d'Alba, Novello, La Morra, Verduno, Grinzane Cavour, Diano d'Alba, Cherasco and Roddi. The soils and mesoclimates vary slightly between these communes, creating subtle differences between the wines produced from their vineyards.

BARBARESCO

The vineyards are situated in the Langhe, on the right-hand side of the Tanaro river and extending from the area northeast of Alba to the communes of Barbaresco, Neive and Treiso, as well as San Rocco Senodelvio. The dominant variety grown is Nebbiolo, but Dolcetto and Barbera also play a part. The vines are generally grown on limestone-rich marl soils, similar to the Tortonium soils of the Barolo and La Morra areas in Barolo, at 650–1300ft (200–400m) above sea level on very steep, 'pre-alpine' hills. They are situated on south-facing slopes for best exposure.

VENETO

The red wines of note from the Veneto are Amarone della Valpolicella and Valpolicella Classico; blended styles consisting of the native varieties Corvina, Rondinella and Molinara. Traditional Valpolicella is made in a light and easy drinking style, whereas Amarone and Valpolicella Ripasso tend to be richer, juicier and fuller in body. Long ago ancient winemakers from this cool-moderate climate region developed a unique grape drying technique to create the richer, more robust Amarone style.

TUSCANY

Tuscany's claim to fame is Sangiovese. Chianti and Brunello are the first wines that come to mind, which of course represent the best of the best from the region. Rosso di Montalcino often offers great value in a slightly simpler, easier style than Brunello. Rustic, meaty, and herbaceous, these are medium bodied wines with tart red fruit notes, moderate tannins and acidity.

CHIANTI CLASSICO

Chianti Classico is the heartland of the Chianti wine region – its traditional and longest-established viticultural area. The typical Chianti Classico wine is a ruby-red, Sangiovese-based wine with aromas of violets and cherries and a hint of earthy spice.

BRUNELLO DI MONTALCINO

All Brunello di Montalcino wine is made exclusively from Sangiovese grapes grown on the slopes around Montalcino – a classic Tuscan hilltop village 20 miles (30km) south of Siena. The word Brunello translates roughly as 'little dark one', and is the local vernacular name for Sangiovese Grosso, the large-berried form of Sangiovese which grows in the area.

SUPER TUSCANS (IGT)

In relationship to the history of Italian winemaking, Super Tuscans are a relatively new development. They are extremely popular for their approachable, supple, and 'international' style. Non-native varieties like Cabernet, Merlot and Cabernet Franc are often blended with Sangiovese to create uniquely rich, yet rustic wines that buck tradition and forge a path all their own.

SPAIN

BIERZO

Bierzo is a wine region in the northwest of Castilla y Leon, Spain, close to the region's borders with Galicia (to the west) and Asturias to the north. The Bierzo viticultural area consists of two parts: Bierzo Alto (high Bierzo), a mineral-rich and mountainous terrain where terraced vineyards are sewn into the slopes, and Bierzo Bajo (low Bierzo), a wide and verdant plain.

PRIORAT

Priorat is a small, dynamic wine region in Catalonia, north-eastern Spain, intense, full-bodied red wines. The classic Priorat wine is made from old-vine Garnacha and Cariñena, and has concentrated aromas of licorice, tar and brandied cherries.

CABERNET SAUVIGNON, MERLOT AND BLENDS

BORDEAUX

The Bordeaux region is historically one of the worlds most important and influential winemaking regions. Since Roman times the Bordelaise have been making some of the highest quality, age-worthy and sought after wines ever known. The noble and native varieties of Bordeaux; Cabernet Sauvignon, Merlot, Cabernet Franc and Petit Verdot, make up the majority of the plantings throughout the region. A short summary of each notable commune follows below, organized loosely from North to South on the Left Bank, followed finally by the communes of the Right Bank.

173373	Clarendelle 2012	60
172873	Château Croix-Mouton, Bordeaux Superieur 2015	57
205110	Château Gigault Cuvee Viva, Cotes de Blaye 2015	60
173146	Château Montlandrie 2014	65

SAINT ESTÈPHE

St. Estephe is both the largest and the northernmost of the four best communes of the Medoc, on the Left Bank of the Gironde estuary. The gravel soil in this portion of the Medoc peninsula is very prominent, and the wines from this region are known for their concentration, depth and richness. Cabernet is the dominant variety here, supplemented by Merlot. Although no first growths call St. Estephe home, the wines easily compete with some of their 'Premier Cru' neighbors to the south.

BORDEAUX

PAUILLAC

Three of the five First Growths, or 'Premier Grand Cru' Classe's, are located in Pauillac. Château Lafite Rothschild and Château Latour were awarded First Growth status in the Classification of 1855, with Château Mouton Rothschild elevated in 1973. This is a ranking system developed during the reign of Napoleon III. This traditionally acclaimed appellation shares the same prevalent gravel based soil as St. Estephe and the Châteaux of Pauillac are known to produce robust, full-flavored and long-lived Cabernet-based blends.

BORDEAUX

SAINT JULIEN

The smallest commune of the famous four, Saint Julien does not have any of the First Growth Château within its confines. Despite this fact, Bordeaux aficionados know that the best examples from this region are consistently hearty yet sleek, with a cedar, stewed red fruit character and gentle tannins. A number of 'Super Seconds' and 3rd and 4th growths can also be found in this commune.

BORDEAUX

MARGAUX

Typically regarded as the most sensual, refined and elegant Cabernet based blends of the Medoc, Margaux is home to the famed Château Margaux, as well as 21 other classed growths. Due to its large size and varied terroir, the concentration, ripeness and depth of Margaux wines varies, but the classic style is elegant, velvety tannic structure with notes of cherry, plum, burnt tobacco and dried flowers.

BORDEAUX

PESSAC-LÉOGNAN

Located below the entrance to the Gironde Estuary at the foot of the left bank is Pessac-Leognan, home to the last of our 'Premier Grand Cru Classe' Châteaux, Château Haut-Brion. This region straddles the border of Graves and the Medoc, and produces an equal amount of both red and white wines. Cabernet is still the predominant variety in the blends of Pessac, but a greater proportion of Merlot is typically used in comparison to other Medoc Château.

BORDEAUX

POMEROL

Pomerol is the most well known region on the right bank side of the Gironde River, making Merlot dominant blends typically supplemented with Cabernet Franc. Although neither of Pomerol or Saint Emilion were included in the original 1855 Classification of Bordeaux, they have since developed their own system to define the best producers. The best vineyards from this region are situated atop a plateau with enriched clay soil, the most famous of which is Château Petrus. The producers in this region are much smaller than their left bank counterparts and demand for their wines is ever-increasing.

SAINT-ÉMILION

Located just south of Pomerol is Saint Emilion, a region larger than a number of other Bordeaux appellations combined. Similar to its neighbor, the wines from this region are Merlot based, and are deep in concentration, with a full, rich and robust profile. The characteristic notes of sweet, ripe black fruit and the plush, soft structure of these wines makes them extremely popular for those looking for a friendly introduction to the wines of Bordeaux.

CABERNET SAUVIGNON AND BLENDS

CALIFORNIA

California's long and rich winemaking history has always been in homage to the classic wine making regions of the Old World. Cabernet Sauvignon is California's most widely planted red grape. The Napa Valley offers some of its finest interpretations. While there can never be a comparison between Bordeaux and California Cabernet, it is important to note that although they may use the same grape variety, each of these wine growing areas has its own, unique regional identity.

SOUTHERN HEMISPHERE REDS

ARGENTINA

Argentina is one of the most important wine-producing countries in the New World, and the largest producer of wine in South America. The high-altitude deserts of the eastern Andes have given rise to a high-quality wine industry, and the terroir here is well suited to Argentina's adopted grape variety, the ubiquitous Malbec. Originally from Bordeaux, this is now responsible for some of Argentina's most famous wines, which are characteristically bright and intense, with floral notes and flavors of dark fruit.

AUSTRALIA

The vast landscape of Australia, with its huge range of climatic and geographical conditions, makes it one of the most versatile wine-growing countries in the world. Overall, the climate is affected by its southerly latitude, but regional features such as altitude and proximity to the oceans also play a significant role. Wine is produced in all of Australia's six states, but the vast majority is made in the southeast, in New South Wales, Victoria and particularly South Australia.

NEW ZEALAND

New Zealand, the world's southernmost wine-producing nation. New Zealand has 10 major wine-growing regions spread across the North and South Islands. Most of New Zealand's wine regions have a maritime climate. The long, thin shape of the country means that vineyards are never more than 75 miles (120km) from the coast, and most are in fact far closer than this (with the exception of the semi-continental Central Otago region). A spine of mountains that runs through the middle of the country – from the Tongariro National Park in the North Island to the Southern Alps in the South Island – protects most of the main wine regions from the strong westerly winds from the Tasman Sea that are known as the Roaring Forties.

SOUTH AFRICA

South Africa is one of the most prominent wine-producing countries in the Southern Hemisphere. With more than 300 years of winemaking history, it is often described as bridging the gap between the Old World and New. The majority of wines are made using New World winemaking techniques but often have more in common stylistically with their Old World counterparts. Since the end of apartheid South African wine has enjoyed international attention and acclaim for its wide variety of styles.

KOSHER WINE

Produced in a manner that is approved to be in accordance with Jewish Dietary Laws (Kashrut). Only religious Jews may handle the wine and touch the equipment from the time the grapes arrive at the winery. Even a Jewish wine maker who is not orthodox is not allowed to draw samples from the barrels. This may be frustrating for a hands-on wine maker, but Kosher producers are used to it...and it is not a restriction that affects quality.

WINES FOR DESSERT, CHEESE & FOIE GRAS

In the following pages you will find a hand selected variety of dessert wines from around the world. Sauternes, the sweet botrytised white wine from Bordeaux, is a classic pairing with Foie Gras and salty sharp cheeses. Late Harvest styles of Riesling from Germany and Austria are particularly well matched with tart, fruit based desserts, while fortified Port wine is delicious with chocolate desserts and full flavored cheeses.

VODKA

Is Vodka, little water, Russian or Polish? For over seven hundred years the question of who coined the term has been debated with great enthusiasm. The popularity of this spirit, as the quest for the bragging rights raged, has not been dampened for centuries and today makes up for a quarter of the total liquor imbibed on the planet. First distilled in the fourteenth century, the process of creating the clear spirit migrated through the Vodka Belt countries: Poland, Russia, Ukraine, the Baltic states of Estonia, Latvia and Lithuania, Finland, Norway and Sweden. Whether Utilizing the traditional rye, wheat or potato, or more recently grapes and sugars, the process of mashing to extract the sugars from the starches remains the same. The addition of yeast and water is next, and the fermentation process of this concoction begins. It is at this stage of the process that a sense of place, or terroir, is imparted. The flavors that will ultimately end up on the palate are born as the yeast devours the sugars creating the alcohol. This wash is then refined in a pot still or a continuous column still and sometimes both, in a process called rectification. The source of the water and the strain of the yeast are both of the utmost importance. Yeast varieties are a closely guarded secret and the purest of water sources are coveted prizes amongst producers. The water added to dilute the strength of this alcohol can make up to sixty percent of the final product. The water used, whether lake, well or even ice berg, is de-mineralized with various types of filtering. The less processing of this water the finer the product, the finer the water the less the processing. At the end of a final filtration, your vodka is here.

GIN

The medicinal powers of the juniper berry were famed throughout the Netherlands for centuries. In the 1500's they infused the berry with Rye spirit creating the Dutch Courage that would soon rule the spirit world. When the Dutch King William of Orange took the English throne from James II in 1689 the popularity of the Genever spirit exploded.

Wheat based and infused with juniper and botanicals, left to ferment and distilled, London Dry Gin became the drink of choice throughout Britain. From there it travelled with the Royal Navy throughout the world as the staple tippie of the sailors. Mixed with quinine and lime it helped stave off skurvy and other ship borne diseases for centuries before Rum took over the role.

Distilled gin is the addition of ingredients and botanicals after the distilling stage, opening the doors of flavor to a myriad of botanicals, terroir and hand of the maker.

From the classic Tanqueray to the Islay flavors of the Botanist, from the Botanical laden Uncle Vals to the cucumber infused Hendricks, our Wally's selection will take you on a flavor filled Gin journey.

RUM

When Columbus brought sugar cane from their native Canary Islands to Barbados in the Caribbean Islands in the late 1400's, he unknowingly began the rise of Rum that would play a major role in helping Britannia rule the waves for hundreds of years to come. The growth of the cane flourished in the climate of the Caribbean Islands. By the 1600's the juices extracted from the cane were being distilled into the two spirits, Agricole and Industrial, we call Rum. There are four classifications in rum: Light - unaged, Gold – added caramel and often aged, Dark – added flavors and aged and Spiced – added caramel and native spices. Agricole rum takes the juices from the cane, vin de cannes, and adds water and yeast and is distilled twice in pot stills. White rum is unaged and is bottled straight from the still. Gold rum would have caramel added and aged three years in French oak barrels. Industrial Rum uses the cane juice to make molasses, adds native ingredients, water and yeast and is distilled in a column still and aged in toasted casks. After the capture of Jamaica in 1655 by the British, the royal Navy issued a half pint of rum a day to each and every sailor. The lure of the sea, adventure and twice daily rations of rum kept the Navy awash in sailors. This tradition was continued for over 300 years until July 1970.

TEQUILA

This Mexican liquor is derived from the blue Agave plant. Highland grown Agave are larger in body and sweeter in taste and aroma. Lowland grown Agave are smaller and more herbaceous in fragrance and flavor. Silver Tequilas are distilled and immediately bottled, resulting in a crisp fresh profile. Reposado and Anejo Tequilas are barrel aged, resulting mellower, fuller flavors and amber hues.

BOURBON

When the Scots Irish arrived in America from their native lands in the 16 and 1700's they brought with them their distilling skills and the love of liquor. The Scots followers of King Billy took to the hills of Kentucky, reminiscent of their beloved highlands, and began the distilling process.

These HillBilly's , as they were known, had the access to everything they needed in Kentucky to make whiskey- Water, Oak, Soil, Yeast, Weather and Rivers. Using corn as their grain of choice, distilling and aging in charred oak barrels, they perfected their whiskey making.

These Kentucky whiskies became increasingly popular leading to Geroge Washington levying the first tax on a domestic product by the new Federal government and thus paving the road to the Whiskey Rebellion of 1791.

Throughout the first half of the nineteenth century the consistency of the whiskey making process became more refined, the continuous still was borne out of the industrial revolution and whiskey making soared. The first bottle of Old Forester came in 1870 and in 1897 the quality control of Bottled in Bond was introduced. This meant that the Bourbon was produced at a single distillery, from a single season and aged for at least four years in a federally bonded warehouse and bottled at 100 proof.

In 1920 a severe blow was delivered to the centuries old liquor industry- Prohibition. The banning of the production, importation and transportation of alcohol in the United States. This killed off a lot of distilleries and the drought continued for 13 years until December 5th 1933.

It took the whiskey distilling industry many years to get back on it's feet. It wasn't until the 1980's that the production of small batch and single barrel began to take off in earnest. There are a plethora of fantastic producers on display here at Wally's. Bulleit, Michters, Knob Creek, Noah's Mill, Jefferson... the list goes on and on.

The story of American Bourbon continues to evolve and weave it's way through the fabric of American history. It's flavors and warmth will continue to comfort for years to come.

IRISH WHISKEY

'Uisce Beatha' or 'The Water of Life' is how the Irish have described their whiskies. Thrice distilled grain blends and malts, from the three main distilleries on the Island.

2 Gingers	14
Powers John Lane 12yr.	20
